

# HURRICANE RUTH

The POWER of Big Mama Thornton, the FIRE of Janis Joplin, the ENERGY of Tina Turner and the SOULFULNESS of Aretha Franklin all rolled into a petite dynamo! Standing at 5' 4", LaMaster earned her "Hurricane" nickname because people couldn't believe such a powerful voice was coming out of such a small woman. The great WILLIE DIXON once told Ruth, "You're the only hurricane I can appreciate."

Produced by two-time Grammy Award Winner Tom Hambridge, the album also credits Hambridge on drums, Reese Wynans on keys, Michael Rhodes on bass and Pat Buchanan and Rob McNelley on guitar.

*"Hurricane Ruth has a voice that just moves your soul on so many levels. Quite frankly there are few singers who could match Hurricane Ruth at her powerful best!"*

– Peter Merrett, PBS 106.7 – Melbourne, Australia

*"Pipes like this are what people are hearing when they refer to someone "belting out the blues."*

– Peter "Blewzzman" Lauro, Mary4Music.com
